Subject: Willamette needs to be cleaned and working waterfront needs support

A cleanup plan is a good idea but we have to make sure we can afford it. I always appreciate the concept of "them" having to pay which in these cases are historic users of the waterfront. However, I always seem to find that "they" pass along those costs to ME and I cannot afford to spend heavily on overly-expensive clean-up costs. Translate "ME" to "US" as the greater-community and the cost issue becomes a serious burden that needs to be weighed with various choices in the clean-up process. This area has, and can allow more, middle-wage jobs. Please ensure that balance is created in allowing clean-up while ensuring that costs are a meaningful part of the action plan such that our community can afford to deliver.

Sincerely,

(b) (6)
